Through speakers and interactive workshops, our student and teacher led Professional Learning Conference aims to assist you in developing ideas and strategies to empower students at your school.

MEET HAYLEY DUREAU

Hayley Dureau is the Head of Student Leadership at Mount Waverley Secondary College. Winner of the 2015 Victorian Student Representative Council Teacher Advisor Award, Hayley developed a college-wide student leadership program, and has shown how genuine student voice can be used to improve student morale and student connectedness to school. Passionate about enhancing student learning by improving relationships between staff and students, Hayley introduced the VicSRC's Teach the Teacher program at the college, giving students the opportunity to provide feedback and discuss their learning with their teachers.
